

"I dedicate this Sound Off to CVIM, which is Community Volunteers in Medicine in West Chester. I have been unemployed for over 14 months. I have no insurance and I ended up with CVIM. I want to thank them, the president, the CEO and Dr. Mary Horsham for bringing me back to health. I got all the care I needed ... everything from acupuncture to meeting with an orthopedic specialist, getting X-rays done, I also was referred to Paoli Hospital where I got an MRI done and some other tests I needed. I also want to make a shout-out to Paoli Hospital. It's nice to know that people really care and that people donate money to CVIM and other places to help people who are without insurance and lost their jobs and other things that make it unaffordable for them to have insurance. I also give a shout-out to CVIM and thank them and their whole staff. Thank you for helping me get back to good health and now God has finally blessed me with a job."
