

Volunteer Star

DISPENSARY
1 Year

CRAIG PRINCE, B.S. PHARM., RPH.

What duties do you perform in your volunteer role at CVIM?

I provide pharmaceutical care services supporting CVIM's multidisciplinary team of healthcare professionals and our patients here. We safely and accurately dispense over 19,000 prescriptions per year based on prescriber written orders. We review medication regimens to assure and optimize efficacy, safety, and economy for the patients we serve.

What brought you to volunteer at CVIM?

After an exciting corporate career, it was important to me, now, to renew my original interest in working closely with care providers and patients in a clinical setting while meeting an important need in the community.

How does volunteering at CVIM make you feel?

Valued for the time, energy, and talent that I'm able to offer. "Giving something back" to a community that's rewarded me so well, especially something that holds very real value for people in challenging times, is very rewarding, indeed.

What would you tell your friends to interest them in volunteering at the clinic?

The need is very real, the teamwork is terrific, and the rewards are many. The practice model at CVIM is tight collaboration, focused on delivering high quality care. It's a very exciting and rewarding place to be.

What other hats have you worn (past or current jobs, civic activities, etc.)?

I served in the US Marine Corps and enjoyed positions in sales, market development, national account management, and strategic planning in the pharmaceutical, medical device, and consumer health industries. I'm a volunteer webmaster for the high school band and a youth basketball and Little League baseball coach.

When you're not at CVIM, what are a few of the things you do for enjoyment?

I do yard work and run hard to keep up with my busy family. I enjoy reading, cooking (eating), and fixing things!
