

## Volunteer Star

**JACKIE NAGORNY, R.N.**

**NURSE  
13 Years**

### **What duties do you perform in your volunteer role at CVIM?**

I prepare patients for the doctor visit by taking the blood pressure and temperature, drawing blood, doing electrocardiograms, and assuring patients they will be well taken care of.

### **What brought you to volunteer at CVIM?**

I learned about CVIM from a volunteer who served on a committee with me at church. It was just what I was looking for.

### **How does volunteering at CVIM make you feel?**

I have had many blessings in my life. CVIM is one way I can give back. It's the best "job" I've ever had!

### **What would you tell your friends to interest them in volunteering at the clinic?**

It is an exciting place to be, a place where one can fill a need. You can't help but be impressed by all of the volunteers and the wonderful things they do.

### **Have you recruited any other volunteers to work at CVIM?**

Yes, three. After hearing me talk about the great work that was going on here, how much I enjoyed being a part of it, and how much CVIM filled a need in Chester County, both my chiropractor and one of my friends became volunteers. Also, I gave a CVIM tour to a college student who needed information on public health care and who subsequently became very interested in the clinic, and soon her father, an M.D., became a volunteer as a result.

### **What other hats have you worn?**

I was a Girl Scout leader, Red Cross "Gray Lady," and church choir member while my kids were growing up. Then I got my R.N. and did some hospital and doctor's office work for 10 years.

### **When you're not at CVIM, what are a few of the things you do for enjoyment?**

I like to be with my grandchildren, garden, knit, and listen to music.
