

## Volunteer Star

**PETER TEUNISSEN**

**COMPUTER  
SYSTEM SUPPORT  
4 Years**

### **What duties do you perform in your volunteer role at CVIM?**

I help manage the computer system and create background tools to help CVIM get the most out of its current patient database software. For example, I created the tool that enables staff members to get emails with the different reports that they need.

### **What brought you to volunteer at CVIM?**

My wife, Cristina, volunteered here and then I came in as a volunteer too.

### **How does volunteering at CVIM make you feel?**

I feel it is a great way to contribute my skills to a good cause.

### **What would you tell your friends to interest them in volunteering at the clinic?**

Whenever I am in the building I am always impressed with the professional atmosphere. The people are always very welcoming and grateful for my help. Everybody has skills that would be appreciated, and every little bit helps.

### **Have you recruited any other volunteers to work at CVIM?**

No, but my wife has mentioned it to some of our friends, and a few have taken the step to become volunteers.

### **What other hats have you worn?**

Through my work, we do an annual Helping Hands activity. As part of that I have cleaned up a park in Phoenixville and have helped clean the CVIM dispensary. During Friends of Valley Forge Park day, I volunteered, and helped paint one of the bathroom buildings in Valley Forge Park.

### **When you're not at CVIM, what are a few of the things you do for enjoyment?**

I like to go to karate with my children, watch movies, and travel, and if after all that I still have free time, I like to build and fly model airplanes.
