

VOLUNTEERS NEEDED

Community Volunteers in Medicine (CVIM) provides compassionate medical, dental, and behavioral healthcare and health education to people who live or work in the Chester County region and lack access to insurance, in order to support their goals to lead productive, healthy, and hopeful lives. As a non-profit, supported 100% through philanthropy, we are committed to remaining the safety net healthcare provider in our community.

Volunteers are the heart and soul of CVIM. Our volunteer licensed healthcare professionals and support volunteers embody a culture of compassion that is shared with our patients through culturally competent and dignified care. Last fiscal year, over 400 volunteers provided nearly 40,000 hours of volunteer service in the pursuit of better health for the community. Join us in providing healthcare, hope and healing as a CVIM volunteer!

All licensed positions require an Active Unrestricted PA license
